

## How To Install Your Security Decals & Warning Sign

1. Select a location that is highly visible and easily accessible for entry by a burglar. Be sure to choose a flat, smooth, non-porous surface like glass.
2. Wipe the surface clean with window cleaner or rubbing alcohol.
3. Peel off paper backing on decal
4. Place one side of decal on glass, starting by smoothing decal as you install to effectively remove any bubbles.

People passing by should be able to see the lawn sign from their vehicle. Usually near a mailbox.

Please remember our agreement with you strictly prohibits the placement of our decals or sign on any property other than the property currently subscribing to our services. This policy was established to maintain the up most relationship with local law enforcement. The systems that display our name are systems that can be trusted as a reliable, dependable, and less likely to cause a false alarm from equipment malfunction.
